YARD WASTE AND TREE DEBRIS DISPOSAL AREA INFORMATION

The City's Yard Waste and Tree Debris Disposal Area in June 2016 moved to its current location at the Materials Management Site at 27887 Highway U. The yard waste and tree debris collected at the site is used in the City's composting process when the material is not contaminated with other residential municipal wastes. Prior to the move to this new location the site was continuously open. Unfortunately, illegal dumping of municipal wastes and scrap tires at the City's site increased to the point that some of the material was so contaminated it could not be used in the compost process. Additionally, the City was required to pay the costs of landfill disposal of the illegally dumped trash and scrap tires.

Current Operating Hours for the Yard Waste and Tree Debris Area are:

7:00 a.m. to 5:30 p.m. 7 days per week excluding City Holidays

(City Holidays are: New Year's Day, Martin Luther King, Jr. Day, President's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Veteran's Day, Thanksgiving Holiday (Thursday & Friday) and Christmas Day.)
