FOR IMMEDIATE RELEASE
9:30 a.m., Tuesday, Jan. 16, 2018

City of Sedalia: Dangerous Wind Chills Trash and Recycling Pickup Cancelled Tuesday, Jan. 16 and Late Start on Wednesday, Jan. 17

With temperatures and wind chill values well below zero today and expected to last through at least noon on Wednesday, trash pickup has been canceled in Sedalia for Tuesday, January 16 and is expected to begin later than normal on Wednesday. The current weather conditions are cause for worker safety concerns for those riding on the back of garbage and recycling trucks as wind chill values may cause frost bite to exposed skin or hypothermia within less than 30 minutes.

Trash crews will begin picking up Tuesday's route on Wednesday mid-morning as soon as temperatures allow. For those residences with pick up scheduled on Wednesday, those residences south of 16th Street will be picked up on Wednesday. Those residences with pick up scheduled on Wednesday and living north of 16th Street will be picked up on Thursday. Thursday and Friday pick up will be on their normal days.

We apologize for any inconvenience these delays in pick-up may cause.

If you have questions about trash and recycling services, please contact the Sanitation and Recycling Department at (660) 827-7820 or the Public Works Department at (660) 827-3000, ext. 1166.
