FOR IMMEDIATE RELEASE  
10:00 a.m. CDT, Tuesday, August 27, 2019

### **SEDALIA WATER DEPARTMENT PROVIDES CONVENIENT BILL PAYING OPTIONS**

(Sedalia, MO): Now it is even easier to pay your water bill without having to search for stamps or visit the Water Department. We understand everyone has a busy schedule and we hope to take the hassle out of paying your monthly water bill. This is why we now provide several different payment options:

- 1) Online Bank to Bank Transfer: With this option, you may simply go online to your bank's website each month and direct your bank to make a payment to the Sedalia Water Department.
- 2) Online Auto Debit: Perhaps you'd prefer not to have to remember the online bank to bank transfer each month. In that case, the Online Auto Debit might be just the thing for you. By signing up for the Online Auto Debit through the Sedalia Water Department's website, [www.sedalia-water.com](http://www.sedalia-water.com), you are authorizing your bank to pay whatever your monthly water balance is as soon as that bill is issued.
- 3) Payments may also be made 24/7 by calling (660) 851-1704. Through the phone system, customers will be able to schedule a payment by using their banking account.
- 4) You can continue to use your credit card to pay through the online system as well. *However, please note that in the future, the Water Department may need to collect a service fee for the processing of credit card transactions.*

Paying your bill electronically is the most cost effective way for the city and therefore it will help keep cost down to you, the consumer. If you have any questions, feel free to call the Sedalia Water Department at (660) 826-1234.
