

Addendum #2 2022-016 On-Site Generator Maintenance, Inspection and Repair

The City of Sedalia received the following questions:

Once legal looks at the IFB and may have questions or red lines, do you need them sent to you at this email also?

All questions are due by Oct. 29, at 4:00 p.m. No questions will be responded to after that time.

If the questions relate to the contract once offered a contract award, contract issues may be addressed during the negotiation process, if needed.

Redlines would be addressed through the exception form as they would be areas your company would not be meeting the stated requirements.
