How To Detect An Illicit Discharge

An *Illicit Discharge* is any discharge that enters a storm drain that isn't entirely composed of stormwater.

Don't throw trash, where I splash!
Keep my home clean by reporting what you see!

Call (660) 827-3000

Examples of Illicit Discharges

- Fluids from leaking vehicles
- Grass clippings
- Pet Waste
- Litter
- Hazardous Waste
- Paint
- Soil
- Sediment
- Concrete Washout
- Industrial Waste

WHAT TO DO IF YOU SEE ONE:

Contact the City of Sedalia *Stormwater Coordinator* right away.

Be prepared to give the address and details about what you saw.

Taking a photo is a great idea as well.

By working together, citizens and local Public Works employees can make a positive difference in keeping the City of Sedalia's water clean and healthy for not only today but for the future as well.

Stormwater Quick Facts-

- Stormwater runoff isn't treated before it reaches our community waterways and streams.
- Runoff becomes polluted as it runs along roads, parking lots, roofs and lawns.
- You don't need a heavy rain storm to send pollutants towards our streams. A garden hose alone can supply enough water.
- Clogged storm drains from yard debris and trash can lead to flooding in our city streets.
- You can stop the fast flow of stormwater on your property by installing a rain garden or barrel, use gravel or pavers in place of concrete and asphalt and direct your home downspouts onto the grass not your driveway.
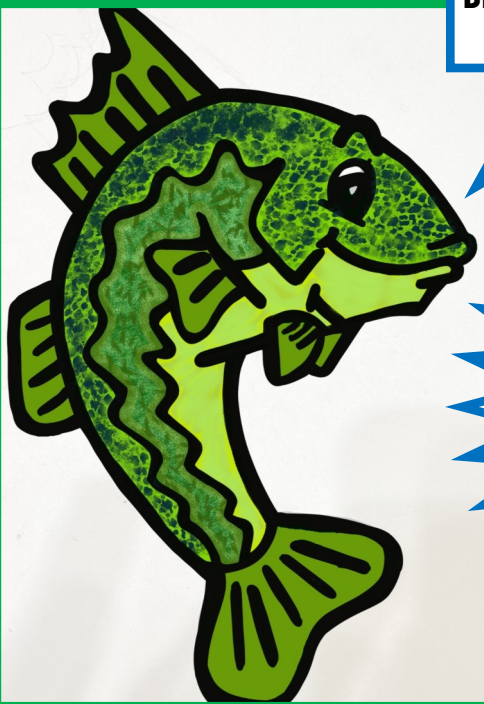

The City has six minimum control measures (MCM) in place for stormwater management. These include:

- Public Education and Outreach
- Public Participation and Involvement
- Illicit Discharge Detection and Elimination
- Construction Site Runoff Control
- Post Construction Runoff Control
- Pollution Prevention and Good Housekeeping

Would you or an organization you are involved in be interested in cleaning up our community? Helping with a stream clean up event or storm drain stenciling is an easy way to do that. Contact my friend Brittany for more information.

Common Stormwater Pollutants Include:

- Motor Oil
- Fuel and Grease
- Sediment
- Pesticides
- Herbicides
- Fertilizers
- Yard Waste
- Pet Waste
- Paints
- Litter

Did you know the City of Sedalia has a Stream Team?

Our team number is: 3205
