# OFFICE OF THE INTERIM CITY ADMINISTRATOR

**To:** Honorable Mayor Andrew L. Dawson & City Council Members  
**From:** Matthew Wirt, Interim City Administrator  
**Re:** Agenda items for City Council meeting on Monday, May 5<sup>th</sup> 6:30 p.m.

**Finance/Administration** – There are no items for consideration through the Finance/Administration Committee.

**Public Works Committee** – There is one item for consideration through the Public Works Committee.

1. The Utilities Department requests approval to purchase UV system supplies for the Central and Southeast Wastewater Treatment Plants in the amount of \$64,814.20 from Trojan Technologies. These components, including bulbs, sleeves, ballasts, and light sensor kits, are required to meet the disinfection standards outlined in the City's DNR NPDES permit for E. coli treatment during the April to October operational season. OEM parts from Trojan are necessary to maintain the system's performance guarantee and therefore meets the City purchasing policy as a sole source vendor. This expenditure was anticipated and included in the FY26 budget and is slightly below the original budgeted amount. Staff recommends proceeding with the purchase to ensure uninterrupted regulatory compliance and continued system reliability.

**Public Safety Committee** – There are two items for consideration through the Public Safety Committee.

1. During the strategic plan presentation in 2024, the operational need for a Special Response Vehicle (SRV) to enhance officer safety during dynamic entries and life-threatening incidents was outlined. Currently, the Police Department lacks this critical capability, placing officers at increased risk during high-threat situations. This need was further discussed during the FY 2026 budget planning sessions, and the approved budget included funding for the acquisition of an SRV. Following the budget adoption, SPD solicited bids for the vehicle and received one bid proposal from Terradyne Armored Vehicles, Inc. The proposed vehicle meets all operational requirements and was the department's preferred choice due to its level of protection and suitability for use by the Special Response Team. The total cost of the vehicle is \$299,950, with an additional \$7,980 in transportation costs, bringing the total to \$307,930. Although the original budgeted amount was \$275,000, inflation and market conditions have contributed to the increased cost. The department, however, has maintained restricted safety equipment funds in the amount of \$50,000, which will be applied toward the purchase. Staff recommends acceptance of the bid from Terradyne Armored Vehicles, Inc. for the purchase of the Special Response Vehicle. This acquisition was budgeted in FY 2026 and will significantly enhance officer safety and departmental response capabilities.
2. In response to ongoing complaints from residents, including concerns brought forward to Councilman Scribner regarding excessive noise on Broadway Boulevard, an ordinance has

been drafted to prohibit the use of unmuffled engine braking systems ("Jake Brakes") within the city limits. A similar ordinance previously existed but was later repealed due to problematic language; however, this updated version corrects those issues and incorporates language recommended by the Missouri Department of Transportation (MoDOT). The ordinance prohibits engine braking without a properly maintained muffler, except in emergency situations to protect life or property, or when used by city, state, or rescue vehicles. The prohibition applies to all roads within the City of Sedalia. Signs stating "VEHICLE NOISE LAWS ENFORCED" or "ENGINE BRAKE ORDINANCE ENFORCED" may be installed at locations deemed appropriate by the City Council, though signage on state highways would require MoDOT approval.

**Community Development Committee** – There is one item for consideration through the Community Development Committee.

1. First there will be a presentation by Sedalia Community Helping Hands about their organization and the work they do in Sedalia.

Sedalia Community Helping Hands is a volunteer-led nonprofit organization that provides essential home improvements for low-income, elderly, and disabled residents, directly supporting neighborhood revitalization and public welfare. The organization's work enhances public health and safety by making critical house repairs and addressing debris and nuisance conditions that could otherwise strain City enforcement resources. To help continue these efforts, staff and the mayor are proposing two resolutions to provide targeted support within the designated 353 Redevelopment Area. The first resolution authorizes the waiver of up to \$600 in City-imposed container rental and landfill tipping fees during Fiscal Year 2025–2026. This waiver supports cleanup and abatement projects assisting vulnerable residents with property maintenance and compliance. To qualify, projects must occur within the designated redevelopment area, and all container requests must be submitted at least one week in advance. The second resolution authorizes the waiver of building permit fees up to \$4,000 for eligible projects during the 2025 and 2026 calendar years, with the resolution taking effect immediately upon passage and remaining valid through April 6, 2026. Staff recommends approval of both resolutions and requests that all relevant departments coordinate with Sedalia Community Helping Hands to implement the waiver programs and ensure oversight for code compliance and accurate project tracking.

- Staff applied for and received a grant from the Missouri Division of Tourism to fund wayfinding signage throughout Sedalia. As part of the implementation process, the project was put out for bid. Two bids were submitted, however, both were deemed non-compliant. One bidder failed to acknowledge the required addendums, both used incorrect bid forms, and neither signed and dated the IFB signature page as required. Following consultation with the granting agency and the Sedalia Convention & Visitors Bureau, it was determined that there was not sufficient time remaining in the

current grant cycle to rebid and complete the project successfully. The City was subsequently authorized to reapply for the grant in the next state fiscal year which provides a full grant window from July 1, 2025, through June 30, 2026. The City has since been notified that it has been re-awarded the grant and can move forward with the project with a new bidding process. Staff recommends that Council formally reject all bids received related to the fabrication and installation of wayfinding signage. All Present in Favor. Robinson was Absent.

To support this redevelopment, which includes the Boys & Girls Club of West Central Missouri, future residential apartments, and additional non-profit service facilities, staff recommends approval of an Infrastructure Development Agreement with Holland Holding Company, LLC. Under the terms of the agreement, the Developer will construct stormwater improvements, sidewalks, curbs, and install street lighting along the South and West edges of the project site. These improvements will extend the downtown streetscape and address long-standing drainage issues along Mill Street. The City will reimburse the Developer for up to \$525,000 in certified infrastructure construction costs, amortized over ten years. The City will directly provide the materials and labor for paving Mill Street and supply the light fixtures, which will be installed by the Developer.

**Re:** UV Supplies for Southeast and Central Wastewater Plants

---

This memo is in regards to a request for UV supplies for the Central and Southeast Wastewater Treatment Plants. The UV buildings at both facilities requires annual maintenance and repairs. We need to purchase bulbs, sleeves, ballast, and light sensor kits to keep the UV systems running per factory specifications.

The UV systems are required per DNR NPDES permit to disinfect from April to October for E.coli. We are needing to purchase these items through Trojan as repairs can only be made with Trojan OEM parts.

The cost for these products are \$64,814.20.

**RE: Trojan System UV3Plus ('07) Replacement Parts**

Dear Mr. Maness:

In the Engineered Submittal Package for the Trojan System, Trojan provided an equipment performance guarantee stating that the system will meet the required level of disinfection provided that the system is operated and maintained in accordance with recommendations made by Trojan Technologies.

In order for this equipment guarantee to be maintained, it is imperative that the appropriate components and replacement parts be used in the system. There are key replacement parts and system components that directly influence the performance and reliability of the system. Among these critical replacement parts are the UV lamps, sleeves, electronic ballasts, wiper seals, Acti-clean Gel, printed circuitry etc. Without using lamps, ballasts, and other components that are approved and validated by Trojan Technologies, we cannot guarantee that the system will provide the required germicidal output. Subsequently, we cannot guarantee that the required UV dose is being delivered, if lamp output, ballast efficiency and system programming is unknown.

In order to keep the equipment performance guarantee intact, it is recommended that specialized system component(s) and Service are solely purchased and contracted from Trojan Technologies, located in London, ON (or US Warehouse in Kentwood, MI). Trojan purchases only validated system components, from our suppliers and only those component(s) meeting our performance standards are passed on to our customers.

**DEPARTMENTAL MEMORANDUM**  
**Office of the Chief of Police**

**To : City Administrator Matthew Wirt**

**From : Chief David Woolery\_\_\_\_\_**

**Date : April 30th, 2025**

**Ref : Bid Acceptance SRT Vehicle Purchase**

During the strategic plan presentation in 2024, the operational need for a Special Response Vehicle (SRV) to enhance officer safety during dynamic entries and life-threatening incidents was outlined. Currently, the Police Department lacks this critical capability, placing officers at increased risk during high-threat situations. This need was further discussed during the FY 2026 budget planning sessions, and the approved budget included funding for the acquisition of an SRV. Following the budget adoption, SPD solicited bids for the vehicle and received one bid proposal from Terradyne Armored Vehicles, Inc. The proposed vehicle meets all operational requirements and was the department's preferred choice due to its level of protection and suitability for use by the Special Response Team. The total cost of the vehicle is \$299,950, with an additional \$7,980 in transportation costs, bringing the total to \$307,930. Although the original budgeted amount was \$275,000, inflation and market conditions have contributed to the increased cost. The department, however, has maintained restricted safety equipment funds in the amount of \$50,000, which will be applied toward the purchase. I respectfully recommend acceptance of the bid from Terradyne Armored Vehicles, Inc. for the purchase of the Special Response Vehicle. This acquisition was budgeted in FY 2026 and will significantly enhance officer safety and departmental response capabilities.

AND LANDFILL FEES FOR SEDALIA COMMUNITY HELPING HANDS  
DURING FISCAL YEAR 2025-2026.**

**WHEREAS**, Sedalia Community Helping Hands is a recognized charitable organization dedicated to improving the living conditions of low-income families in Sedalia through home repair and renovation; and

**WHEREAS**, these projects not only enhance the living standards of underprivileged residents but also contribute to the overall wellbeing and aesthetic improvement of our community; and

**WHEREAS**, these projects, including those aiding elderly residents, not only enhance the living standards of underprivileged residents but also contribute to the overall wellbeing and aesthetic improvement of our community; and

**WHEREAS**, the organization follows a structured and responsible process to identify and assist residents who are elderly, disabled, or financially unable to bring their properties into compliance without external support; and

**WHEREAS**, the work performed by Sedalia Community Helping Hands contributes directly to public health, safety, and neighborhood revitalization by removing accumulated waste, debris, and other public nuisances which, if left unaddressed, constitute blight and can attract vermin, depress property values, and strain City enforcement resources; and

**WHEREAS**, failure to partner with volunteer organizations such as *Sedalia Community Helping Hands* would place the entire burden of abatement costs solely upon the City of Sedalia, and by extension, the taxpayers and ratepayers; and

**WHEREAS**, the City of Sedalia desires to support these volunteer-led abatement efforts through a limited waiver of fees, thereby enhancing community engagement while protecting the public interest.

**NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEDALIA, MISSOURI, AS FOLLOWS:**

**Section 1.** The City Council hereby authorizes the waiver of City-imposed container rental and landfill tipping fees for Sedalia Community Helping Hands in an amount not to exceed Six Hundred Dollars (\$600.00) for the fiscal year 2025-2026.

**Section 2.** This waiver shall only apply to cleanup projects located within the City's 353 Redevelopment Area, previously declared blighted by the City Council, where public funds and resources may be used to support voluntary abatement efforts.
