OFFICE OF THE CITY ADMINISTRATOR

To: Honorable Mayor Andrew L. Dawson & City Council Members
From: Matthew Wirt, City Administrator
Re: Agenda items for City Council meeting on Monday, February 23rd 6:30 p.m.

Finance/Administration – There is one item for consideration through the Finance/Administration Committee.

1. The Finance Department has completed a review of departmental records and identified documents that have exceeded the required retention period in accordance with Missouri's Local Records Retention Schedules. These records are eligible for lawful destruction. Approval of this item authorizes the Finance Department to proceed with destruction in compliance with applicable state guidelines and established procedures.

Public Works Committee – There are three items for consideration through the Public Works Committee.

1. In 2025, the City of Sedalia entered into a cooperative agreement with the Missouri Department of Conservation to assist with management of property surrounding Spring Fork Lake. That partnership has supported responsible land stewardship, conservation practices, and coordinated management of this valuable community resource. The proposed ordinance authorizes renewal of the agreement to continue that collaboration. Through this partnership, the City can work alongside conservation professionals to ensure the land surrounding Spring Fork Lake is responsibly managed, environmentally protected, and preserved for public enjoyment. Staff recommends approval of the renewal as presented.
2. This ordinance would establish a 4-way stop at the intersection of West 3rd Street and South Park Avenue. The request has been under review by the Citizen's Traffic Advisory Commission for some time. During its evaluation, the Commission reviewed accident data, traffic counts, and applicable standards contained within the Manual on Uniform Traffic Control Devices (MUTCD). After consideration of the available data and criteria, the Commission voted unanimously (6-0) **not** to recommend installation of a 4-way stop at this location. The ordinance is now presented to the Council for final consideration.
3. The Public Works Department opened bids on December 8, 2025 for the 2021-GI-17 CDBG Sidewalk Improvement Project. Upon review of the submitted bids, City and CDBG staff determined that not all required bid documents were properly completed and submitted in accordance with federal procurement and Community Development Block Grant (CDBG) requirements. In addition, further documentation is needed to ensure the project file meets all compliance standards necessary for grant funding eligibility. Because compliance with federal procurement standards is essential to maintain transparency, fairness, and continued eligibility for CDBG funding, staff recommends rejecting all bids received at this time. The project documents will be revised and clarified as needed, and

the project will be re-advertised and re-bid in accordance with applicable procurement procedures.

Public Safety Committee – There are no items for consideration through the Public Safety Committee.

Community Development Committee – There are no items for consideration through the Community Development Committee.

- Ordinance No. 12120 was approved by City Council on August 19, 2024, authorizing professional engineering services from Broadfoot Engineering, LLC related to a utility extension serving the proposed Peterbilt facility along Highway 65 and Highway HH. During routine review of FY 2027 projects and budgets, staff identified a clerical error in the ordinance language, which incorrectly referenced a sanitary sewer main extension instead of the intended water main extension. This revised ordinance corrects that description and does not change the approved scope of work, project intent, or financial impact.

Councilman Hiller thanked Public Works for getting the roads taken care of.

GOOD & WELFARE:

Rene Vance, 19813 Tanglenook, stated Governor Kehoe’s 2027 proposed budget incorporates a 20% cut to the Senior Services Growth and Development Program Fund. The Missouri Aging Association has rejected this proposal because it violates the explicit statutory commitment; it fails to adhere to the legislative intent and harms growing senior population. These funds do not come from personal taxes or general revenue but a tax from insurance policy premiums that are sold and paid to the Treasury of the State of Missouri. It also requires that this fund be dedicated and the moneys solely used by Missouri Department of Health and Senior Services for enhancing senior services provided by area agencies on aging in this state. The proposed income tax reduction would devastate the 1.2 million seniors because their Social Security is not taxed, but it will be. Much more funds would be incorporated with sales taxes on services and products. Ms. Vance stated that she wants to know the City’s ICE policy. She would like it if Homeland security was not allowed to wear masks since it is associated with crime. The seniors want them to follow the law with signed warrants. They also request local officers escort all ICE personnel within the City limits to ensure safety for residents.

The meeting adjourned at 7:12 p.m. on motion by Foster, seconded by Boggess to a closed-door meeting in the upstairs conference room pursuant to subsections 1 (Legal Advice), 2 (Real Estate), 3 (Personnel) and 12 (Negotiated Contracts) of Section 610.021 RSMo. SUBJECT: Rejection of Bids-2021-GI-17 CDBG Sidewalk Improvement Project

Background

The Public Works Department recently conducted a bid opening for the 2021-GI-17 CDBG Sidewalk Improvement Project on December 8, 2025. Upon review of the bids received, CDBG and City staff determined that not all required documents were properly completed and submitted in accordance with the bid specifications and project requirements.

Issue

Compliance with all bid submission and federal procurement requirements is essential to ensure fairness, transparency, and adherence to Community Development Block Grant (CDBG) regulations. Staff determined that:

- Not all required CDBG bid documents were completed and submitted with the bids received; and
- Additional procurement documentation is required to ensure the project file meets CDBG compliance standards and is acceptable to CDBG for funding purposes.

Due to these deficiencies, the bids received must be considered non-responsive, and award of the contract at this time would not meet required procurement and federal compliance standards.

Recommendation

The Public Works Department respectfully recommends that the City Council reject all bids received for the 2021-GI-17 CDBG Sidewalk Improvement Project due to incomplete bid submissions.

Staff will revise and clarify the project documents to ensure all requirements are clearly outlined and understood. The project will then be re-advertised and re-bid in accordance with applicable procurement procedures.

Requested Action

Approve a motion to reject all bids received for the 2021-GI-17 CDBG Sidewalk Improvement Project and authorize the Public Works Department to revise and re-bid the project.

Respectfully submitted,

Public Works Department
